Dear Colleagues,

It is my great pleasure to greet you at the beginning of the Fifth Congress of the 34th American College of Cardiology Consortium Chapter of Serbia and Republic of Srpska, which will be held on February 28-29, 2020, at Hotel "M", Belgrade, Serbia. 34th Chapter of the American College of Cardiology of Serbia and the Republic of Srpska was founded in early 2015 and was promoted on March 15, 2015 in San Diego at the 64th Congress of the American College of Cardiology.

This Chapter was founded with the aim of improving cooperation and connection with the American College of Cardiology, Cardiology Society of Serbia, and Cardiology Society of the Republic of Srpska. The first steps of this cooperation were realized through the organization of joint sessions at the 20th, 21st Congress of the Cardiology society of Serbia that was held on Zlatibor in 2015, 2017 and 2019, and Fourth Congress of the Cardiology Society of Republic of Srpska in Teslić in 2016. We organized activities on 65th Congress of the American College of Cardiology held in Chicago in March 2016, 66th Congress of the American College of Cardiology held in Washington in March 2017, 67th Congress of the American College of Cardiology held in Orlando in March 2018 and 68th Congress of the American College of Cardiology held in New Orleans in March 2019.

In addition, we organized congresses of 34th American College of Cardiology Consortium Chapter with following topic: Practical aspects and comparative analysis of ACC/AHA and ESC guidelines In Serbia and Republic of Srpska 2020 (PRAC SIS 2016, 2017, 2018 and 2019 meeting) that were held in Belgrade and Jahorina. The main topic of Fifth Congress will be also dedicated to the analysis of the 5 most recent ESC clinical guidelines (diabetes, prediabetes and cardiovascular diseases, chronic coronary syndromes, dyslipidemias, supraventricular tachycardia and pulmonary embolism) and 2 ACC/AHA guidelines (primary prevention of cardiovascular diseases and atrial fibrillation). Speakers and moderators will be the most prominent cardiologists from the Cardiology Society of Serbia and the Cardiology Society of Republic of Srpska. I would specially like to express my gratitude to the first Governor of our Chapter Professor Milan Nedeljković for excellent leadership for the period 2015-2019 and support in organizing this Congress. I wish you successful meeting.
