## **AKREDITACIJA KONGRESA KOD ZDRAVSTVENOG SAVETA SRBIJE**

### **ACCREDITATION BY HEALTH COUNCIL OF SERBIA**

16. Beogradski samit interventnih kardiologa - BASICS+” je akreditovan kao nacionalni kongres sa međunarodnim učešćem odlukom Zdravstvenog saveta Srbije broj 153-02-00118/2023-01 od 13.03.2023. godine, pod evidencionim brojem A-1-93/23, na sledeći način:

*“16th Belgrade Summit of Interventional CardiologistS - BASICS+” is accredited as a national congress with international participation by the Serbian Health Council (decision number 153-02-00118/2023-01 from 13.03.2023. under the number A-1-93/23) with the following number of CME credits:*

**Broj bodova za predavače / Lecturers – 13 bodova / CME credits**

**Broj bodova za pasivno učešće / Participants – 8 bodova / CME credits**

### **KOTIZACIJA / REGISTRATION FEE**

130€ plus PDV-om u dinarskoj protivvrednosti za lekare, 60€ plus PDV za medicinske sestre i tehničare u dinarskoj protivvrednosti (informacije: zivka.milicevic@gmail.com)

*130€ plus VAT included for physicians, 60€ plus VAT included for fellows, nurses and technicians in RSD value  
(information: zivka.milicevic@gmail.com)*

**Kotizacija obuhvata:** pristup svim naučnim sesijama tokom kongresa

**Registration fee for Exhibitors includes:** Admission to all scientific session during the congress

## POZDRAVNI GOVOR

Dragi prijatelji, poštovane koleginice i kolege, uvaženi gosti iz inostranstva,

Pozdravljam vas kao predsednik Radne grupe za interventnu kardiologiju Udruženja kardiologa Srbije, na otvaranju 16. po redu internacionalnog kongresa BASICS. Kao što znate, BASICS je najstariji i najreomiraniji kongres interventne kardiologije u regionu, koji se sa manjim prekidom zbog Covid pandemije održava od 2005. godine u kontinuitetu. I ove godine pripremili smo interesantan program, koji obuhvata koronarnu i strukturnu patologiju uz prenose uživo iz angiosala sa IKVB „Dedinje“ i IKVBV Sremska Kamenica. Ovog puta više vremena smo odvojili za predavanja i diskusiju o najaktuelnijim temama iz oblasti interventne kardiologije, nauštrb vremena u direktnom prenosu iz angiosala. Takođe, kao i prethodnih godina, organizovali smo sesiju sa najinteresantnjim temama za naše dragocene saradnike, medicinske sestre i tehničare, bez kojih naš rad ne bi bio moguć.

Koristim priliku da izrazim zahvalnost farmaceutskim kućama i distributerima materijala koji koristimo u našem poslu, koji su podržali ovaj kongres i bez čijeg doprinosa ne bi bilo moguće organizovati ovaj skup. Takođe se zahvaljujem renomiranim gostima iz inostranstva, koji svojim prisustvom i aktivnim učešćem uveliko doprinose uspehu ovog kongresa. Posebnu zahvalnost dugujemo Profesoru Masahisi Yamaneu, našem uvaženom gostu iz Japana, koji je jedan od najzaslužnijih za edukaciju i uspon interventne kardiologije u Srbiji, posebno u oblasti hroničnih totalnih okluzija. Pored toga ne želim da izostavim i Prof. dr Milovana Bojića i Prof. dr Aleksandra Redžeka, koji su kao direktori ustanova domaćina ovogodišnjeg BASICS-a dali svoj veliki doprinos organizaciji ovog kongresa. U kategoriju ljudi kojima dugujemo zahvalnost, spadaju i moji prethodnici na mestu predsednika Radne grupe za interventnu kardiologiju, na čelu sa Akademikom Prof. dr Miodragom Ostojićem, potom Prof. dr Milanom A. Nedeljkovićem, Prof. dr Sinišom Stojkovićem, Prof. dr Zoranom Perišićem i dr Dragom Debeljačkim.

Kao i prošle godine, BASICS je akreditivan i nosi 13 KME bodova za predavače i 8 KME bodova za učesnike.

Na kraju, pozivam vas da svojim prisustvom i aktivnim učešćem doprinesete uspehu ovog kongresa.

S poštovanjem,

A handwritten signature in blue ink, appearing to read "Bratislav Milosavljević".

Dr Bratislav Milosavljević

Predsednik Radne grupe za kateterizaciju i perkutane koronarne intervencije Udruženja kardiologa Srbije

## **WELCOME NOTE**

Dear friends, dear colleagues, distinguished international guests,

I greet you as a president of the national Working Group on interventional cardiology of the Cardiology Society of Serbia, at the opening of the 16th international BASICS meeting. As you know, BASICS is the oldest and most renowned congress in interventional cardiology in the region, which has been held, with a minor interruption due to the Covid pandemics, since 2005. in continuity. This year we have prepared an interesting program, which includes coronary and structural pathology with live transmissions from cath labs of IKVB "Dedinje" and IKVBV Sremska Kamenica. This time we took more time for lectures and discussions on the most current topics in the field of interventional cardiology, taking away some time from live transmission. Like in previous years, we organized a session with the most interesting topics for our valuable associates, nurses and technicians, without whom our work would not be possible. I take the opportunity to express my gratitude to pharmaceutical companies and distributors of materials and equipment that we use in our everyday work, who supported this congress and without whose contribution it would not be possible to organize this meeting. I would also like to thank renowned guests from abroad, whose presence and active participation greatly contributed to the success of this congress. We owe special thanks to Professor Masahisa Yamane, our distinguished guest from Japan, who is one of the most responsible persons for the education and the rise of interventional cardiology in Serbia, especially in the field of chronic total occlusions. I want to emphasize the special role and importance of Professor Milovan Bojic and Professor Aleksandar Redzek, who, as directors of the institutions that host this year's BASICS, gave their great contribution to the organization of this congress. In the category of people to whom we owe gratitude, I want to mention my predecessors as presidents of the Working Group on interventional cardiology, starting form Academician Professor Miodrag Ostojic, Professor Milan A. Nedeljkovic, Professor Sinisa Stojkovic, Professor Zoran Perisic, and Dr Dragan Debeljacki.

This year's BASICS is accredited and carries 13 CME credits for lecturers and 8 CME credits for other participants.

Finally, I invite you to contribute to the success of this congress with your presence and active participation.

Sincerely,

  
Dr Bratislav Milosavljević

President of Working group on catheterization and percutaneous coronary interventions of the Cardiology society of Serbia
